PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed — all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second — by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles — make sure they are out — use your ash tray.

5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires — 3

Number of acres burned — 381½

Number of permits issued — 41

There were many changes in the teaching staff again this year, particularly on the high school level. It seemed as though everything happened that possibly could happen. Mrs. Bigelow, a most valuable teacher to the high school, decided to teach in Concord. She was replaced by Mr. Philip Smith, also an experienced teacher. Mrs. Kelley was replaced by Barbara King in the commercial department. Mrs. Dorothy Atherton replaced Mrs. Paula Smith, who was forced to resign because of illness. Fortunately all three of these new teachers had some teaching experience. We also have Mr. Yeaton replacing Mr. Wilson in shop and Miss Mary Greenwood replaced Mr. Lovejoy in science. Just before school opened Mr. LaMothe, the principal, resigned and Mr. Douglas Brown was promoted to the principalship. Mr. Alfred Bourget was employed to take over Mr. Brown's program.

There doesn't seem to be any activity on the cooperative school program in the New London-Sunapee-Andover area. However there seems to be more people interested in New London High School in this area. Pressures will increase to provide transportation for Bradford children to New London. This could raise serious problems for Warner. It seems to me quite evident that Simonds High School must have a fairly large number of tuition pupils in order to continue

as a high school. If we lose our tuition pupils, then the school will either be too expensive to operate, or we will be forced to eliminate part of our curriculum.

We must do everything in our power to attract tuition pupils to Warner. Not only does the Principal of the school have to do promotional work, but so do the people of the community. In addition we must put on the best program possible in our high school. We must make every effort to retain teachers who have been successful. This means good salaries, good living conditions, acceptance in the community and freedom from undue criticism.

Warner has had a high school for a long time; longer than most towns in the state. We have had many graduates who have been successful in many different fields. Will we continue to meet the challenge for our youth in a very troubled world?

THE STATE OF NEW HAMPSHIRE
